

Says

What have we heard them say?
What can we imagine them saying?

Thinks

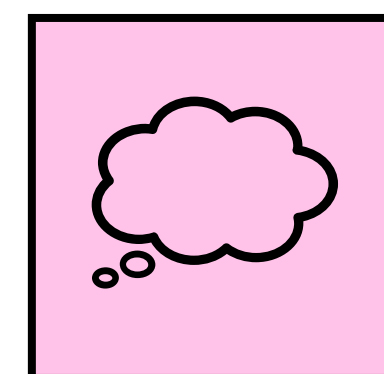

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

Access to electricity improves education, entertainment and productivity.

Is that useful for daily use?

Is that any chance to reduce electricity bills.

Is power consumption should be possible in any place?

Is Fuel can
always
available

What are the things that consume most electric power

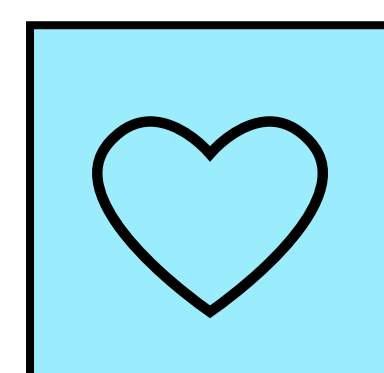

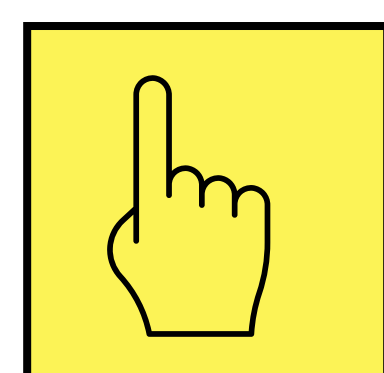

shall I
always use
that data in
daily life?

power
should be
consumed.

create job

way to
reduce high
consumption.

meet
growing
energy
demand

That data could be useful for future use.

That data provide a present information

Production can be unreliable.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
